## JACKS TRIM SHELBY 39-33

Playing bang up ball all the way in Shelby on Sunday last, the Union Jacks, in their first game since they really got organized and going well, wall-opped the crack Montana team by a score of 39-33 last Sunday afternoon, and surprised themselves and most of the fans. These Shelby players are plenty fast, and recently trounced the Texaco All Stars of Sunburst by a wide margin. Taking a larrupping from the All Stars ten days ago, the locals attacked the Shelby crowd with some misgivings, but they got started good, & kept hammering away to win the game.

The player who told us about the game, said they were dog-tired when the last whistle sounded, but the victory was worth it.

The local players and their points were: K. Hague; A. Hague, 7; D. Nilsson 14; Van-Orman 6; Turner 12; B. Fairbanks. Total 39.

### CANDIDATES WILL PRESENT PLATFORM

Candidates for Council and School Board will have a chance to tell the Ratepayers what their platform and plans are, at a meeting called for the Town Hall next Friday night at 8 p. m. The public is invited to be present.

Patron—"I see that tips are forbidden here."  
Barber—"Yes, but Lord bless you, so were apples in the Garden of Eden."

### SENTENCE STIMULANTS

WORRY works wonders for; chattel mortgage holders, doctor; and undertakers.

FIRE doesn't go without fuel and some fools don't get going until they're fired.

MANY false alarms are worked on Hal-l-o-w-e-e-n. Many men are always false alarms and never expect to work.

SOME lazy men fail to die when they should. Other men cannot be said to fail until they die.

MAX BAFFER proved for all men for all time that good looks and popularity are not enough. The old stamina must be kept up.

WORDS are like electric switches; they turn on power. They bring power to banish mental pain, to re-establish hope, courage and faith and give an idealistic impulse to life. Some people have lines hooked up through newspapers, magazines, and books so as to let energy thru quickly to thousands. But everyone can operate over the old system by inspiring one person so he will want to pass it along.

WHEN asked if he would take a certain city if he had the opportunity Alexander thundered, "I make opportunities." Many people are to be waiting for someone else to provide an opportunity who could be making their own.

The C. C. F. party will urge a reduction of from 70 to 60 years in the old age pension act when the Federal House meets. This has been the propaganda of several Federal members recently, included among them being some liberals. If it could be financed it would alleviate some of the existing unemployment.

## RAYMOND PIONEER FETED ON BIRTHDAY

RAYMOND, Feb. 4.—A very enjoyable birthday party was given by Mr. and Mrs. T. J. O'Brien on the occasion of the 70 birthday of Mr. O'Brien, when a number of his friends met at his home and enjoyed the evening of Feb. 3rd.

A banquet was served by Mrs. O'Brien, assisted by her daughter, Mrs. Hampton Whitbeck, and Mrs. John O'Brien. The balance of the evening was spent in toasts and games. Geo. W. Green, a life-time friend of Mr. O'Brien, paid a tribute to the life and character of Mr. O'Brien and the influence for good he had been in the community, especially in their association as friends.

Mr. O'Brien came to Raymond from Utah in 1902. He was foremost in the civic affairs in Raymond, having served as town clerk, councilman and as Mayor, and was identified with the sugar industry since the days of the Knight Sugar Co., and is now occupied in an important position with the Canadian Sugar Factory at Raymond. Besides the immediate family the following guests were present: Mr. and Mrs. O. H. Snow, Mr. and Mrs. J. W. Evans, Mr. and Mrs. J. H. Walker, Mrs. D. B. Harris, Mrs. W. B. Nalder, Mrs. Ada O'Brien, Mr. and Mrs. T. Geo. Wood, Mr. and Mrs. Frank Taylor, Mr. and Mrs. Bliss Roberts, Mr. and Mrs. Hampton Whitbeck, Mr. and Mrs. John O'Brien, M. H. Ellison, Lethbridge, Mr. and Mrs. John H. Green, Lethbridge, Mr. and Mrs. Geo. W. Green, Lethbridge. —Lethbridge Herald.

### TORTURED BABIES, AND CLASSES FOR PARENTS

A father and mother are in jail in Kentucky for allowing torturing their nine months old baby. The mother claims that the father put the baby's feet on a hot stove because it would not stop crying when commanded to.

This recalls the classes for parents being held by churches, Y.M.C.A.'s etc. in many parts of the country.

It would appear that much more could be done along this line.

Of course if left to the High School the teaching would help a great deal although many would be missed.

Why not use existing machinery. Could not farm bureaus include neighborhood gatherings in which this subject of being a good parent could be taught? Couldn't missionary societies and ladies aid societies have a good book on the subject and read a chapter at a meeting.

We would not favor taking the child away from the parent at so early an age as they tried in Russia. There is something of value in the sentimental relation of mother and child that it would not be well to eliminate from the race. But more can be done in teaching parents the rudiments of their great task.

This teaching should be undertaken orally or in form only by those who have had some experience on the subject.

Geo. L. Chew, popular manager of the Club Cafe, left Raymond Monday afternoon to spend a holiday in Vancouver and other points. He will be away several months, but will be back again to Raymond, which he says he likes very well.

RENEW YOUR RECORDER?

With an attendance of about thirty-five, the Annual Ratepayers meeting got under way last Friday evening at 8 p.m., with Mayor Meeks in the chair. The first matter of business was the choosing of Chairman and Secretary, and L. L. Pack was the choice for Chairman and S. I. May for Secretary.

The first item of the business was the presentation of the Financial Statement of the Town and School, by the Secretary's, O. H. Snow and Paul Dahl respectively. Considerable questioning and discussion followed the reading of these reports, and C. F. Tollestrup, Chairman of the report stated that had been put on the public repairs to the value of \$1,700 school, and that the building was in pretty good condition. He also pointed out that despite additional teachers during the past few years, Raymond's schools were operating for less money today than they were 4 or 5 years ago. Reporting on the Public Liability Insurance taken out on the Public School students, a motion was passed commending this action, and suggesting the Board investigate similar insurance for High School pupils, and act according to what is deemed best.

The Raymond Public School was the largest single Public School in the Province, lacking only two grades of being a complete double school, there being fourteen regular and one substitute teacher here, and five regular and one substitute teacher in the High School, making a staff of 22 teachers.

Music was also being taught in the Public School three half-days each week by Miss Nalder.

The Mayor presented a brief report of the Council's labors and activities in the past year, and their plans for the future.

Light and power rates in the Town came in for considerable discussion, and as the sentiment of the meeting was that commercial and power rates were too high, a motion was passed unanimously that the Council investigate rates in neighboring towns, and their agreements, and that with other consumers interested, they press for a hearing of these matters, and if necessary, meet the head officials in their offices, and if not satisfied there take the matter to the Board of Public Utilities in Edmonton to see what could be done, about rates for street lighting, pumping, commercial lighting and power rates.

A community swimming pool, which project has been suggested several times by the Rotary Club was presented to the Ratepayers, with a table of estimates, and after considerable discussion a motion was passed instructing the Council to work with other organizations in the town, and if the plan appeared within the realm of accomplishment, that the Council lend their aid financially and otherwise to see it to a successful completion.

A hearty vote of thanks was tendered the Council, School Board and Hospital Board for their services during the past year, and the meeting adjourned at 10:30 p. m.

Senator W. E. Borah of Idaho has definitely his candidacy for President of the United States in the Republican ticket.

The Dominion House opened in Canada's eighteenth Parliament Thursday, the same day as the Provincial House. Baron Tweedsmuir, in his official capacity as Governor-General delivered the speech from the throne.

Coal dealers are doing a thriving business during this prolonged cold spell.

A father and four children were burned to death in Lethbridge, Sask., Sunday when fire destroyed their home and trapped them in. A girl jumped from an upstairs window and walked barefoot through the snow half-mile to neighbors, thus saving her life.

Parliament opened Tuesday without a speaker's chair. The last one was presented to Speaker Johnson at the conclusion of last session, and the new one has not arrived yet. Speaker Tanner had to make out with an ordinary business chair.

All of western Canada has been shivering in a cold wave for the last week. Temperature readings as low as 42 below zero have been reported.

Early Tuesday morning was the coldest weather reported this winter, when at about 6:25 a. m. the mercury sank to 35 below zero, and most of the day a cold wind blew from the north east.

Thursday was between 20 and 30 below all day long.

Music was also being taught in the Public School three half-days each week by Miss Nalder.

The Mayor presented a brief report of the Council's labors and activities in the past year, and their plans for the future.

Light and power rates in the Town came in for considerable discussion, and as the sentiment of the meeting was that commercial and power rates were too high, a motion was passed unanimously that the Council investigate rates in neighboring towns, and their agreements, and that with other consumers interested, they press for a hearing of these matters, and if necessary, meet the head officials in their offices, and if not satisfied there take the matter to the Board of Public Utilities in Edmonton to see what could be done, about rates for street lighting, pumping, commercial lighting and power rates.

A community swimming pool, which project has been suggested several times by the Rotary Club was presented to the Ratepayers, with a table of estimates, and after considerable discussion a motion was passed instructing the Council to work with other organizations in the town, and if the plan appeared within the realm of accomplishment, that the Council lend their aid financially and otherwise to see it to a successful completion.

A hearty vote of thanks was tendered the Council, School Board and Hospital Board for their services during the past year, and the meeting adjourned at 10:30 p. m.

Feeders state that it takes a lot of feed now to keep beef where they were before the real cold weather set in, and that only those animals in exceptionally warm sheds and with plenty of feed are showing any gains at all.

By a vote of 700 to 6, the Trustees in Convention turned down the bill sponsored by Wm. Aberhart for larger districts, and the abolition of the small independent boards as at present.

Two men of the sea... and a charmer from the ports of the Orient. "CHINA SEAS," at the Capitol, Saturday, Monday and Tuesday.

Stavely had only two nominations for three Council vacancies last Monday and had to refer their case to the Government. We could have loaned a couple and still had ample.

Conference in Magrath has been postponed one week until Feb. 15 and 16, because of the terrible cold.

Raymond Idlers won their league game with Magrath here Wednesday night by a 48-27 score. Gray Kirkham led the scoring with 17 points.

T. O. King was re-elected President of the Provincial Trustees Association at the Calgary Convention Wednesday. This will be his 18th consecutive term in that position. Congratulations "T. O."

Don't forget the Council and School Board election, Monday. Be on hand to elect the men of your choice.

## HAVE YOU ENTERED THE CONTEST YET?

Have you made your entry yet for the Amateur Radio Broadcast Audition yet? Entry forms are being filled in very satisfactorily and those sponsoring the move appreciate this. Remember, next Wednesday is the last day for entries and after that the date of the Audition will be announced.

If you have a specialty in entertainment now is the time to show it. Your voice may be A1 over the air, and that is how all the numbers will be judged. Get in with the rest of them, and find out how good you are. Entry forms may be obtained from Lou King or S. I. May.

Of the 10 best pictures of the year 1935, Brewerton's Capitol has played 9 of these attractions with the other one coming soon—which is "Ruggles of Red Gap."

Coach Robinson was ill Sunday and not any too well on Monday, although he was looking after the Jacks play Monday night.

### GLEANERS AND "M" MEN BANQUET

(Contributed)

Probably the most interesting social event of the week was the annual banquet of the First Ward Gleaner Girls and M. Men held Saturday night. Nearly one hundred guests sat down to a lovely dinner prepared by some of the Gleaners and M. Men and served by a group of Bee Hive Girls.

The tables were gay with red candles and red hearts in a very pretty Valentine arrangement. At the close of the banquet a toast to the Gleaner Girls was proposed by Mac Hicken followed by a reply and toast to the "M" Men from Agnes Roberts. In closing a short reading on "Valentine's Day" was given by Lavon Meeks. The remainder of the evening was spent in the gymnasium where the crowd thoroughly enjoyed themselves in several lively games and then finished the evening with dancing.

Watch for such attractions as "Mutiny on the Bounty," "Magnificent Obsession," "Tale of Two Cities," "Captain Blood," "Rose Marie" and a host of others.

Fat cattle are going out now in small numbers as they reach maturity and are ready for market, nearly all of Raymond feeders have had some cattle leave during the past two or three weeks.

A broken water main on 17th Ave. and 1st Street in Calgary, early Tuesday morning routed citizens from their beds as it flooded basements. It also endangered life as it flooded furnaces and extinguished the fire without the gas being turned off.

A bonus of \$2,300,000 will be distributed to the 59,000 workers of the Chrysler Corporation in the United States and Canada this week. This will be a nice present indeed.

Ole Olson said Monday night he had spent the past month in Montana, and was accustomed to sub-zero weather. We were glad of that so the shock of our weather would not be too great for him.

Playing before a fair sized crowd Monday night, the New York Harlemites let the Jacks down with a 54-40 score. Despite the cold weather fans were present from Magrath, Spring Coulee, New Dayton, Lethbridge and closer points, and all seemingly enjoyed the game.

The Jacks fought all the way through, and made some spectacular passes and scores, and made the visitors work to hold them down. The ease with which the colored visitors scored and passed showed that they were not being extended to the full, but they had to keep in action all the time, to hold the Jacks down to the score they made.

Equally, if not surpassing the press notices concerning them, the ball-handling was next to perfect. Feinting and passing under the nose of the Jacks made it plain they were at home with the ball. Brime could do almost anything with the ball and one of the fellows bunted a basket through with his head. At times in the game they clowned a little with the ball, bringing loud applause from the fans and during the intermissions their throws with "english" or what-have-you on the ball made the crowd roar with laughter.

It was a good game. The home boys and visitors were good sports all the way through, the locals taking the grubbing in good part, and the visitors appreciating the unusual battle the Jacks waged. The Harlemites will be welcome here again anytime they come. Ole Olson their manager, was with them. Henry Viney had the whistle for the game. The players and score was:

**HARLEMITES—**  
Brime 23; Pearson 12; Hall 6; Cannon 10; Goins 3; Total 54.

**JACKS—**  
Nilsson 7; Turner 20; Van-Orman 5; Robson 2; K. Hague 4; Ab. Hague 2; Snow. Total 40.

### BOARD OF TRADE MONDAY

The first regular meeting of Board of Trade for 1936 will be held Monday evening, Feb. 10, at 8:15 in the Town Hall. All members please be present and on time.

Our selection of typewriter ribbons is complete, new, and packed in air-tight containers. Let us supply your needs. We thank you.

This is the kind of weather the old-timers used to look for in Southern Alberta. Now it is quite out of the ordinary to us.

O. F. Urnsbach, one time resident of Raymond, and the father of O. W. Urnsbach, of the Lethbridge Stake Presidency, and who now lives in Los Angeles, has been named President of the French Mission of the L.D.S. Church, according to reports received here.

Robert Young, aged farmer of Okotoks, who was lost 48 hours in drifting snow, & found by a searching party assisted by the police of Sgt. J. M. Cawsey, who has figured in police hunts for several years past. Young was so far gone that he died half an hour after being rescued, while lying in the home of a neighbor.

Gable, Harlow, Bee v in a red-blooded drama of adventure and romance! "CHINA SEAS" at the Capitol, Saturday, Monday and Tuesday.

### BEET CONTRACT TIME IS NEAR

Before very many weeks contract time for beet growers will be here and arrangements will be being allotted and signed up. We appreciate the fact that there is much to be said on this subject from many angles, and we admit here our inability to argue the point from a financial standpoint. We feel, however, that there is much to be said regarding the social and solidifying effect of the industry in our district, and so we venture a few remarks.

To our mind it is very probable that a status should arise where growers and factory officials come to a parting of ways, and stand adamant, turning to outside sources for arbitration of the disputes. There must be a limit beyond which in reason neither side can be

asked to go, and it seems that sober minded consideration of the pros and cons should suggest a solution. However, we prefer to keep quiet on this point because of lack of information.

We would like to point out, however, some of the benefits of the industry to individuals and the district that cannot be measured in dollars and cents each year, and which over a number of years have a great value. How much added value per acre does clean land have over soil infested with dozens of kinds of weed seeds? How many more bushels of grain and tons of hay will be raised, as compared with land on which no beets have been raised? Have you been in districts during the depression where no crop like beets was grown to contrast the conditions between residents there and in our own district? For the past four years every farmer has been growing grain at a loss, and yet we have not heard any of them swear off on grain growing? Why? Because they need money, and taking the average of years, grain will show a profit. What about beets?

We are building up a wonderful beet feeding industry from beet by-products, which would be impossible without beet culture. The by-products

of this crop also afford a splendid opportunity for dairying, which to date has not been touched. Is there not some way whereby in co-operation with officials of the industry a way out could be found and everyone contented and happy. We all know the story of the farmer who killed the goose that laid the golden egg because he was too avaricious and could not wait for her to lay one egg a day. While the farmer has been getting his bonuses and contract price for his beets, the Company has been taking all the risks of lower prices and carry overs. Is the individual farmer in a position financially to assume part of this risk in the event of a panic in the sugar market for a year or two? Undoubtedly, if an even division of proceeds takes place this would be insisted on.

Might we be pardoned if we enlarged a little on a point made by President Allen last week speaking before the joint Board of Trade and Rotary meeting, when he suggested that the farmer providing more employment for his beet help would automatically solve the labor troubles. Wouldn't a few cows on each farm help out this situation immensely? In other districts, many farmers without any of the benefits of beet by-products practically live during the summer from a cream cheque. Is there not something for study here. Give the beet worker nothing but three or four months work a year, and of course he must have high wages to even live. But, give him a layout where he can make wages and a little more the remainder of the year, and he'll be a better worker and will also be contented.

Probably we are taking this matter too seriously. However, we have seen the benefit of this industry and we say truthfully, we do dislike seeing relations between the parties concerned becoming so strained. We hate to think of no fall payroll for the 300 men needed to man the factory. It means the winter living for many who find the summer months occupied on the farm. We dislike the thought of no planting activity in the

spring, and the advances for seed, feed and fertilizer handed out so liberally by the Sugar Co. We hate to think of the thousands of acres of clean, fertile land, going back to weeds and unsightliness because of a lack of a cultivated crop for it.

We know the attitude of some, because they have expressed it. They say, "Oh, the Company won't do that." We hope they won't, but there is an end to the endurance of every individual or corporation. And we don't hesitate to say, that in our estimation, when all benefits are weighed in view of the past ten years experience that where growers have been building up the fertility of their land and increasing their yields, these growers feel that the industry has been a decided benefit, and many of these growers have stated that the present contract, even with the short tonnage of last year, gave them better net returns than their wheat land. If that is the case, then with the other benefits that accrue from it, surely it is an industry that deserves the support of everyone who is interested in the progress and advancement of Raymond and district.

It is at least worth careful consideration and study by those immediately involved, and in its broader sense, that includes all of us.

CANADIANS AND THEIR INDUSTRIES--AND THEIR BANK  
• GRAIN GROWING •

HENRY: "James, I can remember Dad telling us that, in his day, they used to thresh their grain with a flail. We couldn't get along that way nowadays; there's too much."

JAMES: "You're right, Henry. We must have mechanical help to produce grain at a profit in these days. But I'm in favour of employing as many men as we can."

HENRY: "That's every sensible Canadian's point of view. Our local Bank of Montreal manager tells me that, if the security is all right, his Bank is willing to lend money for necessary modern implements. By the way, our loan at the Bank has been paid off in full and the manager has promised to ad-

vance money against the sale of our wheat to pay for harvest labour. We couldn't get along without the Bank's co-operation. It will be helping us, as usual, when we need money in the spring for seeding--and for that new barn we'll have to build one of these days."

Some of the Bank's services to Grain Growers: Business checking accounts; savings accounts; money orders and travellers cheques; the cashing of grain tickets and cheques; banking by mail; safekeeping of securities; loans for planting, harvesting and farm equipment.

### THE TOWN'S BUSINESS IN 1935

Ratepayers of Raymond to the number of about 35 gathered in the Town Hall Friday night of last week to listen to the reports of the Council and School Board regarding the business of the past year. The meeting was interesting, orderly and informative to all present.

Following the reading of the reports and questions regarding a few minor items, the statements were accepted, and a motion of thanks and appreciation extended to the Council and School Board for their untiring efforts in the interests of the citizens of Raymond during 1935.

From the standpoint of a reporter, there was only one thing wrong with the meeting, the citizens to whom this in-

formation would have been the greatest benefit, were not present to hear what went on. This is often the case. The patients who need the medicine worst, are never there to get it, and those who do not need it so badly take more than they really require.

There is not a department in Town affairs which has not been the subject of criticism, sharp and severe, on the part of residents of Raymond during the past year. It is not with the intention of covering up any of the mistakes of our public servants that we mention these things, but we would like to ask how much time these critics have spent in gathering information regarding the subject of their salaries, to know whereof they speak. It is for this reason we say those who needed the medicine of the

## WEEKLY LETTER

AGRICULTURAL SITUATION  
AND OUTLOOK FOR  
1936

Just recently a pamphlet has been received at the Station dealing with the Agricultural situation and outlook for 1936. This pamphlet gives a lucid description of the prospective situation with numerous major products such as livestock, cereals, forage crops, sugar beets, potatoes, poultry, eggs, butter, milk, cheese, honey, etc. Farmers would be well advised to obtain this pamphlet as it contains basic information that should prove of assistance to them in planning their business operations in 1936.

The following are a few abbreviated abstracts from the publication, which will give an indication of its contents.

**BEEF CATTLE**—"As a result of the Canada-United States Trade Agreement the cattle industry has an opportunity for some increase in export of cattle of weights exceeding 700 pounds, and of veal calves. . . . While United States cattle prices in the spring and summer of 1936 may not approximate those of a year earlier, the reduction in tariff will largely compensate for any lowered prices which might develop."

**HOGS**—"Canada is expected to have some increase in hog output during 1936. The output of hogs in 1936 promises in itself to afford an increase in exports. On the other hand, a factor which may offset this tendency is the possibility of expansion in domestic consumption on account of an increased purchasing power and anticipated higher

prices of beef."

**HORSES**—"Continued enquiries indicate an outlet to this market (United States) for breeding stock in the near future."

**SHEEP and WOOL**—"Interest in lamb production has been stimulated by improved prices for lamb and wool. Improved prices of wool will probably be maintained, and this will be a factor in stimulating further interest."

**POULTRY and EGGS**—"A steady improvement in conditions within the poultry industry took place in 1935 and there is every indication that this will be at least maintained."

**WHEAT**—"While the wheat situation insofar as Canada is concerned is involved at the moment, yet this country must and will continue to produce wheat on a substantial scale. It should be noted, however, that in view of the greatly reduced World import demand the wheat produced by a normal yield on an acreage similar to that sown in 1935 would be difficult of disposal."

**BARLEY**—"The value of barley as a feed grain would seem to justify an expansion of barley acreage toward that of 1928—1932 period."

**OATS**—"A full acreage of oats should be again seeded in 1936."

**FLAX SEED**—"Flax seed acreage might be increased to advantage in 1936."

**CLOVER, ALFALFA and GRASS SEEDS**—"These seeds, except Alsike, are now in fair supply in Canada and the U. S. Timothy as a particularly large crop, the United States producing enough to be again on an export basis, while for the first time in history Canadian pro-

duction was much in excess of normal domestic requirements."

**SUGAR BEETS**—"Prices on raw sugar are showing a tendency to advance, and it is expected, therefore, that the industry will at least maintain its present basis of production."

This pamphlet has been prepared by the Department of Agriculture and the Department of Trade and Commerce co-operating, and a limited number of copies are obtainable for distribution by applying to the Dominion Experimental Station, Lethbridge, Alberta.

THE TOWN'S BUSINESS  
IN 1935

Annual meeting were not there to get it. Generally speaking, they get their information from hearsay and rip and slash on these promises. In justice we ask, is this fair?

We doubt if the Town has ever had more conscientious public servants as an entire group than has been the case in the past year. It has been our fortune, good or otherwise, to sit in with Council and School Board in many of their deliberations. They have given liberally of their time, their experience, and their judgement in the best interest of the Town. They have listened patiently to suggestions, and have received them with gratitude and weighed them, and wherever feasible, have used them. They've made mistakes, no doubt, but in so doing they have sought to rectify them as quickly as possible, and in all cases have endeavored to be economical and careful in expenditures.

We wonder if the citizens ever think, except of course, those who have served on these bodies, or consider the sacrifice in time and effort their servants put in for the Ratepayer, and yet, we are not sure, but beneath a critical attitude on the part of many, they do have appreciation and gratitude for those who serve them. At least, we hope so.

The bus didn't get here until nearly noon Thursday. Drifting during the night made the roads difficult to travel on.

A Whale of a Story  
of a Whale

An advertising expert talking about the psychology of propaganda said:

"A boy boarded an excursion steamer where every seat was occupied. 'Seen the whale tied to the pier on the other side?' he asked his fellow-passengers. His whale story was laughed at, but he kept repeating it.

Gradually, one by one, the passengers got up and crossed over. The boy got a seat. Soon he could have had one hundred seats, for everybody had hurried over so as not to miss the whale.

He sat alone for some time. Finally he hopped up and rushed to the other side of the boat, muttering, 'Maybe there is a whale after all.'"

COMPANY LIMITED  
THE BIG DEPARTMENT STORE

The Provincial Government cracked down pretty suddenly on autoists when they announced last week that motorists had only until Feb. 6th to get their new licenses. Heretofore we have had from three weeks to a month after the first notice. Locally, it appears there will be very few without the new plates by tonight.

J. A. Ririe of Magrath was a Raymond visitor Saturday.

DeLoss Court, brother of Lowell Court, is recovering from an attack of typhoid pneumonia in the Lethbridge Hospital. He had a blood transfusion last week to help him keep up his strength.

Bud Lawson of Lethbridge son-in-law of Mr. and Mrs. Ern Nilsson, was a Raymond visitor on Saturday.

The Hungarian Society had a social evening in their new hall Friday night last. A good crowd was present, and all had a jolly time.

W. B. Porter and Dr. Weiss were in Lethbridge Monday. A very cold trip is reported.

Bill Christensen took the ball team to Shelby Sunday in his newly constructed bus. With windows, ventilators, a stove, etc., passengers had all the comforts of home regardless of the weather.

### Oldest European Discovery Against Stomach Troubles and Rheumatism Acclaimed Best by Latest Tests

Since 1799 thousands of people have regained their normal health after years of suffering from stomach troubles of all types, such as constipation, indigestion, gas and sour stomach which are the basic factors of such maladies as high blood pressure, rheumatism, periodic headaches, pimples on face and body, pains in the back, liver, kidney and bladder disorder, exhaustion, loss of sleep and appetite. Those sufferers have not used any man-made injurious chemicals or drugs of any kind; they have only used a remedy made by Nature. This marvelous product grows on the highest mountain peaks, where it absorbs all the healing elements and vitamins from the sun to aid HUMANITY in distress. It is composed of 19 kinds of natural leaves, seeds, berries and flowers scientifically and proportionately mixed and is known as LION CROSS HERB TEA.

LION CROSS HERB TEA tastes delicious, acts wonderfully upon your system, and is safe even for children. Prepare it fresh like any ordinary tea and drink a glassful once a day, hot or cold.

A one dollar treatment accomplishes WONDERS; makes you look and feel like new born. If you are not as yet familiar with the beneficial effects of this natural remedy LION CROSS HERB TEA try it once and convince yourself. If not satisfactory money refunded to you. Also in tablet form.

Try it and convince yourself with our money-back guarantee. One week treatment \$1.00 Six weeks treatment \$5.00 In order to avoid mistakes in getting the genuine LION CROSS HERB TEA, please fill out the attached coupon.

## NOTICE To All Dog Owners

All owners of dogs in the Town of Raymond are hereby notified that Taxes on said dogs are now due, and are payable immediately.

No further notice will be given and all unlicensed dogs found running at large will be destroyed.

E. S. Hawk,  
Chief of Police.

## NEWS NOTES

School teachers of the city of Edmonton have refused another wage cut, and the School Board will have to find some way of making up the deficit in their requisitions according to reports.

Nearly all members of the local School Board are in Calgary this week attending a Trustees Convention. Proposed changes in school administration was a live topic, and the Convention turned it down flat.

Miss Wyora Scoville, who is teaching school at Leavitt, was a week-end visitor here with her family.

After two days of cold weather, the atmosphere warmed up quite a few degrees Sunday afternoon, & was welcome indeed. 20 below Friday night with even colder weather Saturday, made everyone shiver.

We are sorry to say so, but the bear saw his shadow Sunday, bear day, and we don't know just what to expect. To the pessimistic and fearful we'll say, don't be too apprehensive, we are living in the days when all signs shall fall.

Entries are coming in pretty well for the Amateur Radio Broadcast Audition to be held here. If you have not entered yet, you have until next Wednesday to get in. No matter what your entertainment is, get in on it.

Will Rogers in "Steamboat Round the Bend," gave general satisfaction as usual on Thursday night and Saturday afternoon, and was attended by good audiences. Fans will not see many more productions of this general favorite.

An interesting meeting was held Sunday evening in the Raymond Second Ward when Bishop James H. Walker and Elder F. Weldon Basson spoke on the subject of "Prayer." Sam Dyson spoke briefly on "Scouting," and Mesdames L. D. King and J. H. Walker sang a duet. A good crowd was in attendance.

Wednesday evening was 16 below zero, with a biting north-east wind blowing. Frost bitten fingers and faces were quite common. The entire week has been extremely cold and disagreeable.

## PARTY FOR CHAS. STRONG

An enjoyable social evening was held Tuesday evening following Mutual in honor of Chas. B. Strong, veteran, Choir leader of the Raymond Second Ward.

A good sized crowd was present, and enjoyed a program of music, speeches, etc., including a few words by the guest of honor. A nice collection was taken up and presented to "Charlie," who is going to be treated for rheumatism which is causing him a great deal of discomfort lately.

## VOTING

For the election of Three Town Councilmen and Three School Trustees, will take place at the

**Town Hall, Raymond,  
Monday, Feb. 10, '36**

between the hours of  
**10 a.m. & 7 p.m.**

**George Fairbanks,  
Returning Officer.**

Premier Aberhart in his talk Sunday, stated that people who wanted to know what the Social Credit party was doing, would have to take the Social Credit newspaper. He thinks the Albertan should have a circulation of 100,000 and a similar number in Saskatchewan.

Well folks, there's one consoling fact. This can't last forever, and every day is one day less in the future.

### Star Enjoys Canadian Winter Sports

Nancy Carroll, red-headed Hollywood star, had her first taste of winter sports at Quebec over New Year's. "I have skated on artificial ice in Hollywood," she said to Jack Strathdee, Sports Director at the Chateau Frontenac, "but skiing, tobogganing, and dog sled riding are all new experiences." Her first ski lessons turned her into an enthusiast for breakfast off the sledboard.
